

HAPPY NEW YEAR!

Happy New Year! The January Clearance Sale and also packing and cleaning up after the holiday season has kept us quite busy. We are getting ready for our annual Open House, February 20th and 21st to launch the spring season. Last year's evening reception was so well received that we are doing it again and our Saturday, Day of Learning will be better than ever.

We are holding a contest to name our KWGC garden. Regina Ripley, local gardener extraordinaire and the person who oversees the garden says, "It's just too pretty to be called the garden out front." So, we are asking you to help us select a name for it. Email or bring in your suggestion before February 17th. The winning entry will be announced at the Open House and the winner will receive a \$50.00 Kingwood Garden Center Gift Certificate.

The new roses have arrived. Over 50 varieties, many of your old favorites and some exciting new bushes are in stock and ready to plant. Baby Love, Summer Love, In The Mood, Belinda's Dream, Moonstone, Sophy's Rose, and Sweet Surrender are just a few that would make a perfect Valentines Day gift for that someone special. We also have a wide selection of quality houseplants, decorative containers and unique gifts.

For those who have been inspired by the mild weather we have the best selection of bulbs, herbs and vegetables. Add some color with Geraniums, Impatiens, Snaps, Dianthus, and Begonia baskets to name a small selection.

We have made some exciting changes at KWGC and are looking forward to the spring season. We are especially looking forward to seeing YOU on February 20th and 21st.

- One Free Soil Analysis

- **Package Discount**

- Choose From 3 Programs

Standard Program

Fertilization
Disease Prevention

Organic Program

Fertilization
Disease Prevention
Weed Prevention

JANUARY

Start tomatoes from seed.

Plant Roses. New varieties arrive early this month!

Fertilize established trees and shrubs.

Do not fertilize azaleas and camellias until after they bloom in the spring. Use "Green Sand" to supplement nutrients to green-up plants.

Have your soil tested.

Transplant and move trees and shrubs. This is the best time to move azaleas and camellias.

Prune and groom fruit trees and crape myrtles, but don't prune spring bloomers such as azaleas.

Prepare new beds now for roses and vegetables by adding Garden Soil Builder, compost, peat and/or cotton burr compost. Add fertilizer to beds now to allow the fertilizer to blend into the soil.

Apply pre-emergent to lawns and ornamental beds to prevent sprouting of annual weeds. We recommend Dimension, or Barricade, or corn gluten.

Transplant bare root and container grown roses.

Plant new trees and shrubs.

Plant onion sets: 1015Y, Red Belle, Yellow Granex in stock now.

Spray un-budded trees with All Seasons Spray Oil to suffocate any wintering insect eggs.

FEBRUARY

Plant tomato plants in 6" pots beginning February 1 for later transplanting into the ground after all danger of frost is past.

Spray trees and shrubs with All Seasons Spray Oil to kill overwintering insects and their eggs, and any fungal spores that may be present.

Prune roses on Valentines Day (or there about).

Add lime to hydrangeas for pink blooms and aluminum sulfate for blue blooms. Add super phosphate to crape myrtles to encourage blooming.

Transplant woody shrubs while plants are dormant.

Give ground covers a hair cut to encourage spreading.

Attend the Kingwood Garden Center Spring Open House February 21st (see schedule)

Divide daylilies, daisies and other perennials.

Apply pre-emergent if you missed the January application.

Feed and water the birds.

Find a gift for your Valentine at Kingwood Garden Center
